

Trade Up To Greener, Smarter Card Printing.

Trade in your current ID card printer, from any manufacturer, for the fast, economical and eco-friendly performance of a Datacard® SD Series Card Printer.

SAVE MONEY

The savings begin the moment you buy an SD Series printer, with its reliable operation, low-cost supplies and standard features such as built-in Ethernet & USB.

SAVE TIME

SD Series printers deliver some of the fastest print speeds in their class. Easy load ribbons and TruePick™ card handling, you'll spend far less time clearing jams.

SAVE THE PLANET

SD Series printers are ENERGY STAR® qualified to help your organisation meet its environmental commitments. They feature biodegradable supply cores and recyclable parts and packaging.
